First time logging in!

The password you use to login to Moodle will depend on whether you have previously set up your student password. You use this password to login to student computers, the student portal and your student Wi-Fi.

If you are unsure, go to the student password reset page at https://student.nmit.vic.edu.au/change/resetpassword.aspx

Enter your student number

If you have security questions and answers then you have previously set up your student password.

You can reset your questions and answers if you have forgotten your password

If you do not have security questions, there is a good chance you have not set up your student password.

I have already set up my student password

You need to enter your student number as your user name eg. (s10########)

The password will be your student portal password

I have not set up my student password

When logging into the system for the first time, your *username* will be your ‘Student ID’ (s10########), and your *password* is your ‘Date of Birth’ backwards. Do not add any symbols.

*Example:* John a student of Melbourne Polytechnic (who is born on the 3rd of January 2000) logs in for the first time. This is how John will need to enter his information;

Username: s0000123
Password: 20000103
Changing your Default Password

Once you have logged in for the first time, it is very important that you change your password to protect your account information.

Therefore, to change your default password, you will need to go to the Student Portal and Click on the ‘Set up your account’. Here is the weblink to the Student Portal: https://student.melbournepolytechnic.edu.au/
Now follow the instructions on the form.

Note

Once you have changed your password, you are now ready to log into any of the systems below, using the same username and password:

- Student Portal
- Student Email
- Moodle
- Melbourne Polytechnic Wi-Fi
You can also access the Student Portal site either from the Melbourne Polytechnic Website: https://www.melbournepolytechnic.edu.au/

If you need assistance with your student portal password
You can contact Student Login Help via email at
